---

### Education

---

**North Carolina State University**, Raleigh, NC

- Master of Computer Science — **GPA: 4.0** *December 2015*
  - B.S. in Computer, Electrical Engineering — **GPA: 3.859** *December 2008*
- 

### Experience

---

**Web Developer**

*July 2016-Present*

**Fidelity Charitable**

- Refactored major components of a legacy web app that helps donors grant billions of dollars to charities annually into a responsive single page application.
- Shipped high quality code with frequent code reviews, unit testing, and continuous integration.
- Took ownership of user stories at all levels of development using AngularJS, Java, and Oracle.

**Application Specialist**

*May 2010-July 2016*

**East Carolina University**

- Designed and implemented software architecture for our team's flagship portal project: authentication, account management, session tracking, widgets and pages, and more.
- Developed and documented over a dozen internal tools to streamline application development.

**Software Engineer Trainee**

*February 2009-May 2010*

**Tata Consultancy Services**

- Wrote and executed manual/automated test cases while identifying hundreds of software defects.

**Web Developer**

*June 2008-January 2009*

**North Carolina State University**

- Built web applications with PHP, JavaScript, and MySQL.
- 

### Consulting

---

**Aefis**

*2014*

- Developed and maintained several projects including a drag and drop widget dashboard.

**Epic Games**

*2010-2011*

- Developed a media library that seamlessly integrated with Amazon's Product Advertising API.
- 

### Skills

---
